THE GAME TABLE PRESENCE AND COMPONENTS

HOW DOES IT PLAY?

You begin alone in the darkness, with only a few matches to help you find your way out.

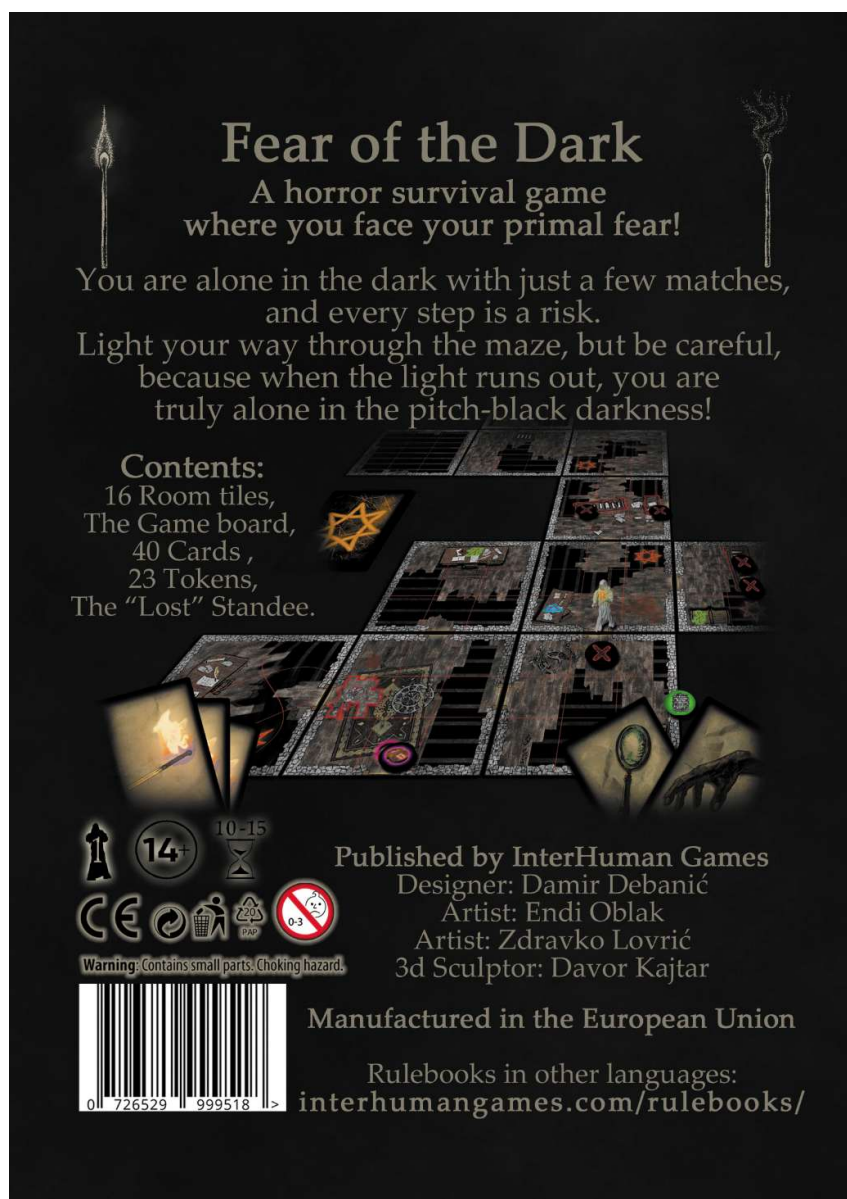

Explore an **ever-growing maze** by revealing room tiles, searching for useful items and secrets while **avoiding hidden dangers**.

Lighting a match lets you build your **Mind hand**, giving you more actions while you are in the **Light**. In the **Darkness**, your options become much more limited, forcing you to decide carefully when a match is worth using.

Your Mind cards are both your **actions and sanity**, and once they are lost, they cannot be recovered.

Reveal the entire maze and find your way out before Terror, the Darkness, or your own failing mind gets you.
